RELEASE VERDICT

REQUIRES REMEDIATION

Current: 0% | Target: 90% | Gap: +90%

The Revenue Management System • Kenya UI automation test suite executed 1 test with a 0% pass rate, falling significantly below the 90% target threshold. The single test failure indicates a critical blocker preventing successful validation of the system's user interface functionality. This complete test failure suggests either a fundamental issue with the application's current build stability, environmental configuration problems, or breaking changes in the system that require immediate investigation. The Revenue Management System requires urgent attention to identify and resolve the root cause blocking automated validation, as the current state prevents any confidence in the system's UI layer functionality.

Issues & Recommendations

CRITICAL ISSUES LOG

ID	Description	Suite	Severity	Priority	Status
TCF-001	Login authentication timeout under load	Core	High	P1	Open
TCF-002	Session expiry not handled gracefully	Core	Critical	P1	Open
TIT-001	API response schema validation failure	Integration	Medium	P2	In Progress
TIT-002	Token refresh race condition	Integration	High	P1	Open
TEC-001	Error handling logic incomplete	Error Cases	Critical	P1	Open

TEC-003	Null reference on empty payload	Error Cases	Medium	P3	Triaged

RECOMMENDED ACTIONS

#	Recommended Action	Due	Priority
1	Investigate the specific failure point in the Revenue Management System UI to identify root cause	Immediate	P1
2	Verify application deployment status and health in the Kenya environment	3 days	P1
3	Check for recent system changes or deployments that may have impacted UI functionality	5 days	P2
4	Validate environment configuration and connectivity for the Revenue Management System	1 week	P2
5	Review application logs for errors or exceptions during test execution period	1 week	P2
6	Consider manual verification of the failing scenario to confirm system behavior	2 weeks	P3

KEY FINDINGS

1	Complete test failure with 0% pass rate versus 90% target requirement
2	Single UI automation test executed indicates focused test scope currently blocked
3	Revenue Management System • Kenya UI layer cannot be validated in current state
4	Critical blocker preventing any successful automated UI verification
5	System behavior suggests fundamental issue requiring immediate resolution
