## Issues & Recommendations

### CRITICAL ISSUES LOG

| ID      | Description                             | Suite       | Severity | Priority | Status      |
|---------|-----------------------------------------|-------------|----------|----------|-------------|
| TCF-001 | Login authentication timeout under load | Core        | High     | P1       | Open        |
| TCF-002 | Session expiry not handled gracefully   | Core        | Critical | P1       | Open        |
| TIT-001 | API response schema validation failure  | Integration | Medium   | P2       | In Progress |
| TIT-002 | Token refresh race condition            | Integration | High     | P1       | Open        |
| TEC-001 | Error handling logic incomplete         | Error Cases | Critical | P1       | Open        |
| TEC-002 | Edge case validation missing            | Error Cases | High     | P2       | Open        |
| TEC-003 | Null reference on empty payload         | Error Cases | Medium   | P3       | Triaged     |

### RECOMMENDED ACTIONS

| # | Recommended Action                                               | Due       | Priority |
|---|------------------------------------------------------------------|-----------|----------|
| 1 | Triage and resolve all failing UI automation tests.              | Immediate | P1       |
| 2 | Re-run the full regression cycle after fixes are applied.        | 3 days    | P1       |
| 3 | Obtain sign-off once the pass rate reaches the target threshold. | 5 days    | P2       |

### KEY FINDINGS

|   |                                                               |
|---|---------------------------------------------------------------|
| 1 | Pass rate is below the configured production threshold.       |
| 2 | UI regression failures require triage to identify root cause. |
| 3 | Review failing specs for common patterns.                     |
